

## DESIGNED FROM THE INSIDE OUT

### Cold-Cured Foam Cushioning

This space-age material encases the interior steel frame and sinuous springs, allowing for body-friendly curvatures to be covered with glove-fitted upholstery.

Dual hinge headrest system allows your head and neck to rest in an infinite number of comfort positions. It can be manually adjusted, regardless of reclining position, to your preferred angle and level of support.

A soft polyurethane foam and fiberfill layer ensures extra softness while accentuating the chair's elegant design contours.

Top grain leathers in four grades and a wide variety of microfiber fabrics provide a luxurious look and long wearing performance.

Computer controlled injection molded cold cured foam ensures ergonomically correct seating posture and enhanced support throughout all areas of the chair.

Sinuous springs located throughout the back and seat area provides optimum support while cradling the body.

An adjustable knob underneath the seat controls the tension on the reclining mechanism.

Ultra-sonic wood lamination allows for graceful chair designs with exceptional strength in conjunction with a 10-gauge steel undercarriage.

The patented Comfort-Glide™ low-friction reclining mechanism easily and intuitively adjusts in response to body weight and movement.

A tubular steel frame along with a 2"/5.1 cm wide steel strap that spans the front provides optimum strength and stability.

Two steel plates attach the European-produced center post swivel to both sides of the wood base for effortless movement and unsurpassed stability.

## COMFORT NORWAY

IMG NORWAY acknowledges the need to protect our environment, both locally and globally. As a result, we strive to continually improve our manufacturing practices to help create a healthier world for our team members, loyal customers, and for future generations.

The selection and use, of high quality sustainable materials, continues to be a core value we take seriously. Not only do we build environmentally conscience models, we ensure that they will stand the test of time, and deliver superior comfort and support throughout many years of sustained use.

At IMG, we strive to ensure all products used are friendly to both the environment and our valued consumers.

Scandinavian design  
and comfort

NORDIC  
*nordic*

**360° Swivel**

With a very smooth 360 degree swivel you can easily rotate the chair in either direction while seated. Our swivel mechanism offers effortless movement and unsurpassed stability.

**Reclining Mechanism**

With our frictionless reclining mechanism you are able to adjust the backrest angle by simply applying your body weight. A tension adjustment knob varies the friction on the reclining mechanism and is located underneath the seat.

**Adjustable Headrest System**

Dual hinge headrest system allows your head and neck to rest in an infinite number of comfort positions. It can be manually adjusted, regardless of reclining position, to your preferred angle and level of support.

**Freestanding footstool**

A freestanding footstool offers a comfortable and practical solution for foot and leg support. The freestanding footstool features an angled top for enhanced leg support and better blood circulation.

**Selecting the perfect size**

We make some of our models in two sizes to provide the degree of choice necessary to satisfy the consumer's demand for comfort. Varying the dimensions of the chairs by only an inch or two in depth, width and height offers customized comfort for people of all shapes and sizes.

**Various bases**

You can choose between a laminated star base or ring base in a wide range of colors. The laminated frame and base have amazing strength and durability.

## CUSTOMIZED COMFORT FOR ALL BODY TYPES

Every chair has been designed to be as comfortable and ergonomically correct as possible. Comfort is of course a personal matter - and it is found when your posture is correct and you get support where your body needs it.

**NORDIC 21**  
Campa 270 Dark beige  
Star base in 911 Espresso

**NORDIC 36**  
Prime 308 Havana  
Ring base in 911 Espresso

**NORDIC 40**  
Prime 307 Latte  
Ring base in 911 Espresso

**NORDIC 60**
